

SUMIT SINGH

PGDM (Finance & Business Analytics)

Noida, India | sumit.singh.2025@absedu.in | 8292140808 | finnexus-lab.vercel.app

PROFESSIONAL SUMMARY

Finance & Analytics professional with a strong academic foundation in financial analysis, business analytics, and corporate reporting. Independently built FinNexus Lab — a full-stack financial intelligence SaaS platform for Indian markets — demonstrating expertise in product development, data architecture, and sector research. Proficient in Excel, Power BI, Tableau, Python, and modern full-stack technologies. Driven to deliver actionable, data-driven outcomes.

PROJECTS & EXPERIENCE

FinNexus Lab | Founder & Solo Developer | finnexus-lab.vercel.app | 2026

- Independently architected and deployed a full-stack financial intelligence SaaS platform using Next.js 14, TypeScript, Neon PostgreSQL, Prisma, NextAuth.js, Stripe, Algolia, and Vercel.
- Built live sector trackers (Quick Commerce, Fintech, EV, Food Delivery), Research, Data Lab, Podcast, and Financial Tools modules — covering 10+ reports and Rs.1T+ market cap.
- Implemented Stripe subscription billing, enterprise authentication, Algolia search, and Contentful CMS — delivering a production-ready platform for investors and analysts.

GeoSEO Lab | Business Analytics & Finance Lead | Jun 2025 – Mar 2026

- Built financial models for cost analysis, budgeting, and performance reporting; developed Power BI & Tableau dashboards tracking revenue trends and operational efficiency metrics.
- Analyzed sales and operational data using Advanced Excel and Python for financial planning and decision support; delivered structured management-level presentations.
- Supported data-driven decision-making by creating actionable analytics and reporting frameworks across key business and financial functions.

HelpBix.Com | Product Analytics & Finance Associate | 2025

- Tracked product KPIs, user engagement, and conversion funnels; built reporting dashboards providing business performance insights for product and leadership teams.
- Applied Python and Excel for data cleaning, cohort analysis, and actionable reporting presented in stakeholder and leadership reviews.
- Aligned product analytics with financial reporting to support revenue evaluation and performance decisions across operational cycles.
